

# Streamline Communications with a Smarter Phone System

Unify your team and collaborate with ease with our fully hosted VoIP plans.

Smart businesses know that effective collaboration is key to increasing productivity and lowering expensive overhead costs.

V3 Communications provides cost-effective VoIP telephone solutions that help to streamline the way your team works.

Our solutions are simple to install, easy to scale and intuitive to learn – all at a price that doesn't break the bank.

## » CUSTOMIZABLE

Our solution allows you to setup your phone system to meet the unique demands of your business with features like auto attendant, call recordings, call queues, voicemail-to-email and more.

## » SCALABLE

Adding new phone lines is quick and easy. Our skilled technicians make sure that your phone systems can scale with your business from day one. Simply give us a call to add new lines and features.

## » COST-EFFECTIVE

We offer competitive pricing for businesses of all sizes. Our solutions can be customized for SMBs, busy call centers and large enterprises to ensure you get the most value out of your phone systems.
